PROFILE SUMMARY

Results-driven Flutter Developer with professional experience in building scalable, high-performance cross-platform mobile applications using Flutter and Dart. Strong expertise in Firebase integration, REST API development, clean architecture, and modern state management solutions such as GetX, Provider, and Bloc.

Proven ability to design intuitive user interfaces, optimize application performance, and implement secure and maintainable solutions. Experienced in delivering production-ready applications in agile environments. Passionate about creating impactful mobile solutions and continuously learning emerging technologies.

TECHNICAL SKILLS

- **Programming Languages:** Dart, Java, C, JavaScript, OOP Concepts
- **Frameworks & Technologies:** Flutter, Firebase, REST APIs, HTML, CSS
- **State Management:** GetX, Provider, Bloc
- **Database & Storage:** Firebase Firestore, Realtime Database, SQLite, Hive, SharedPreferences, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, Android Studio, VS Code, Figma
- **Other Skills:** Clean Architecture, MVC Pattern, API Integration, JSON Parsing, Performance Optimization

EXPERIENCE

- **Software Developer (Flutter) – Softroniics Technologies** *September 2024 – Present*
 - Developed and maintained scalable Flutter applications using clean architecture and modular design principles.
 - Implemented efficient state management using GetX, Provider, and Bloc.
 - Integrated Firebase services including Authentication, Firestore, Cloud Messaging, and Storage.
 - Built and integrated secure REST APIs for backend communication.
 - Improved application performance, reducing load time and increasing responsiveness.
 - Collaborated with designers using Figma to implement modern and responsive UI/UX.
 - Participated in code reviews and contributed to improving overall code quality.
 - Delivered multiple production-ready features in agile development environments.

PROJECTS

Blessing App

Islamic Lifestyle Companion Application

- Implemented accurate prayer time tracking based on user location.
- Developed fasting tracker with reminders and progress monitoring.
- Integrated Quran reading module with structured navigation.
- Built prayer reminder notification system.
- Designed responsive and intuitive user interface.
- Implemented clean architecture for scalability and performance.

NCC Management App

Cadet and Officer Communication System

- Built cadet attendance tracking system.
- Developed officer-cadet communication modules.

- Integrated Firebase Firestore for real-time updates.
- Implemented secure role-based authentication system.
- Improved communication efficiency between cadets and officers.

Expenxo

Personal Expense Tracker Application

- Developed categorized expense tracking system.
- Built monthly and daily expense reports.
- Implemented Hive and SQLite for fast local storage.
- Created dashboard with financial insights.

Chatfly

Real-Time Chat Application

- Developed one-to-one and group chat functionality.
- Integrated Firebase Authentication and Firestore.
- Implemented push notifications using Firebase Cloud Messaging.
- Built scalable clean architecture.

AutoResQ

Emergency Assistance Application

- Built emergency reporting system.
- Implemented live location tracking using Google Maps API.
- Developed mechanic locator system.
- Integrated real-time notifications.

MINI PROJECTS

Musico, QR Scanner, Language Translator, Weather App, Encrypta, Currency Converter, Bingo Game

INTERNSHIP EXPERIENCE

Flutter Developer Intern

Feb 2024 – Jul 2024

Mentorow Technologies, Kochi, Kerala

- Built Flutter applications and reusable UI components.
- Learned Firebase integration and REST API communication.
- Worked with clean architecture and modular code structure.

EDUCATION

Flutter Development Program

Mar 2023 – Dec 2023

Brototype, Trivandrum

Bachelor's Degree

2018 – 2021

Travancore College, Trivandrum
